

SB.24 REMOVABLE SECURITY POST

COMPLETE WITH GROUND SOCKET

Ideal for restricting access, blocking entrances and protecting roller shutter doors. The SB.24R was primarily designed to discourage shop-window-ram-raiders, it is also used to cordon off pedestrianised areas at shopping centres etc. Or anywhere that requires a totally flat surface after removal.

The base is coupled to the steel post by a padlock (not supplied) and stands 1000mm high. The SB.24 handles create easy lifting for this lightweight, yet strong removable security solution.

Powder coated Semi Matt Black and a white vinyl stripe complete with the ground socket (replacement ground sockets available)

Base sits flush when not in use

SOCKET: 100mm square x 250mm deep.

POST: 88.9mm o/d x 3mm thick x 1240mm long.

Powder coated with White or Yellow Vinyl Stripe.

INSTALLATION: Hole required 400mm x 400mm x 400mm deep.
